

Pope Francis Action Team

Minutes: 12th February 2024

The Pope Francis Action Team have registered for the Plastic Count and taken a keen interest in promoting the event.

<https://www.youtube.com/watch?v=x0nQHO7Mw-k&t=2s>

The children have an in-depth knowledge of climate change and its causes and feel passionate about the topic.

1 ACCESS YOUR DASHBOARD

Registration is now closed for The Big Plastic Count! If you've already signed-up, you can still access your dashboard with all the information and resources you need to take part and to teach your pupils about the plastic waste crisis.

2 SUBMIT YOUR RESULTS

With a personalised link for each class, which you will find on your dashboard your class can easily submit their results themselves online, or you can do it together at school. Data submitted after **31 March** won't be included in the national analysis, but pupils can still enter their data and receive the footprints. **Submissions close on 15 April.**

3 GET YOUR CLASS FOOTPRINT

See how much plastic you collectively used and what happens to it! You'll get a certificate and tips for how you and your class can use your results to make a difference.

The Pope Francis Action team have organised the letters to parents and are currently presenting to classes on the importance of plastic pollution.
