

Pope Francis Action Team

Minutes: 11th October 2023

During the week, the Chairperson shared on Google Classroom the following poem and discussed at length her enthusiasm for an Environmental Art Gallery, which included a free write.

- It was agreed that the environmental art could be displayed in the closed cabinets on either side of the staircases.
- A PowerPoint presentation needed to be created to launch the project on Friday 12th October 2023.
- Posters to promote the Exhibition.
- Invite parents/Mr Sharma MP to share the art and send some pieces of art to the Houses of Parliament.
- Promote the event in the School Newsletter and invite the Governors.
- Older and younger children would join to see the Exhibition.

Climate Change

Trees are being cut down,
Animals' homes on the ground,
But all we care about are pennies and pounds.
Floods are happening left and right,
In the dark, dim-lit night,
People's families are no longer in sight.
Earthquakes are making our world shake,
Friends in devastation and awful heartbreak,
The government always trying to manipulate - why do they always have to underestimate?
What would happen if these were OUR homes,
Our lives and love are put on hold,
Having to sleep in England's unbarring cold.
Because it's not us we don't bat an eyelid or two,
What would happen if it was me and you?
Then would you cry?
Ask if you're going to die.
Why, just why?
There are turtles out there with nothing to spare,
Maybe we could say a prayer?
Show them that we truly care.
Trees are being cut down,

Animals' homes on the ground,
But all we care about are pennies and pounds.

The Year 6 Action Team members offered to create the PowerPoint presentation and a task sheet for the teachers to explain the project and expectations. The deadline for returned examples is Friday, 20th October 2023.
